

# National Seed Association of India

## ABOUT US

National Seed Association of India is an apex association of the Indian seed industry comprising the small, medium and large companies as well as public state seed corporations. It has more than 450 members from all over the country. NSAI works closely with government departments for developing policies which would spur agricultural growth. Engaging in a continuous dialogue with regulators for the establishment of a transparent, impartial and equitable administrative framework for growth of the seed sector.

The vision of NSAI is to create “a dynamic, innovative, internationally competitive, research based industry producing high performance, high quality seeds and planting materials which benefit farmers and significantly contribute to the sustainable growth of Indian agriculture”. The Association is also working towards the responsible use of biotechnology for modernizing Indian agriculture and enhancing the livelihood of Indian farmers. Increasing the general awareness about crop biotechnology amongst the many stakeholders, technology upgradation and engaging in a continuous dialogue with regulators for the establishment of a transparent, fair and equitable regulatory system, are some of the other activities of NSAI.

The mission of NSAI is to encourage investment, innovation and R & D to bring to the Indian farmer superior genetics and technologies, which are high performance and can be adopted to a wide range of agro-climatic zones. It actively contributes to seed industry policy development, with the concerned government to ensure that the policies and regulation create an enabling environment, including public acceptance, so that the industry is globally competitive.

NSAI regularly communicates the latest news and other knowledge related to seed industry to its members besides organizing subject specific Conferences/ Seminars/ Special Lectures, regular training and capacity building programmes. NSAI also promotes harmonization and adoption of best commercial practices in production, processing, quality control and distribution of seeds through regular interactions and networking with global/regional seed industry organizations.

# INDIAN SEED CONGRESS

Indian Seed Congress (ISC) is NSAI's annual flagship event. It is the biggest seed congress of South East Asia bringing together industry, scientists & governments from across the globe. ISC showcases the latest trends and views of the seed sector; voices their concerns; deliberates on new technological advances to tackle obstacles to growth. ISC is an innovation hub where the barriers are removed and new technology development and innovations are introduced. It provides a chance for delegates to exhibit new products and services across our network for better business development. The Indian Seed Congress provides a platform for the seed Industry to interact closely with technology developers, sector development officials and policymakers.
